MAESTRO
INTEGRATIONS

[ABOUT US]

Technology Systems Are What We Do.

As a Design-Build firm, we are in a unique position to not only see our integration projects through to completion but to ensure that each client's vision is developed to their satisfaction. This makes us a known and trusted force in the marketplace.

Our vast experience has led us to focus on what we have coined the "Super Seven" in integrative tech scopes: Infrastructure (Copper/Fiber), Distributed Antenna Systems (Cell and Emergency Responder Radio), Gate Controls, Access Controls, Security Systems, Surveillance Systems, and Audio/Video. These scopes have been identified as being those most vital to our client base. We do all planning, design, and installation in-house, ensuring a seamless performance from start to finish.

MaestroIntegrations.com

100+ *Years*

The team at Maestro Integrations combines over 100 years of Integrative Building Technology Experience

We are proud to service the national marketplace with a special focus in the Texas market

Highly-trained and certified staff work with leading brands in the industry

**Let's make your
business look
professional,
wire-free, and
future-ready!**

Cabling Copper/Fiber

The world is working at a faster pace than it used to and your business needs to keep up. At Maestro Integrations, we offer structured wiring solutions that will move your business into the fast lane!

Maestro Integrations installation services include wiring for systems like security, access control, CCTV surveillance, audio/video, phone, and networking. You will be able to relax knowing that all your rooms will never be short of a network, phone, audio, or video outlet.

**Having the proper
infrastructure to automate
your building is just as
important as having the right
foundations for a building to
work effectively and reliably.**

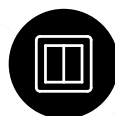

Future Proofing

Structural wiring is the best solution for guaranteeing that your business keeps up with the ever-changing technologies of our times. Our team of highly trained technicians can seamlessly install all of your cabling leaving your business looking professional, wire-free, and future-ready!

Wiring your business properly will help you save on energy costs and improve overall efficiency in your workspace

All your rooms will never be short of a network, phone, audio, or video outlet

**In an emergency,
being connected
is critical
to effective
communication**

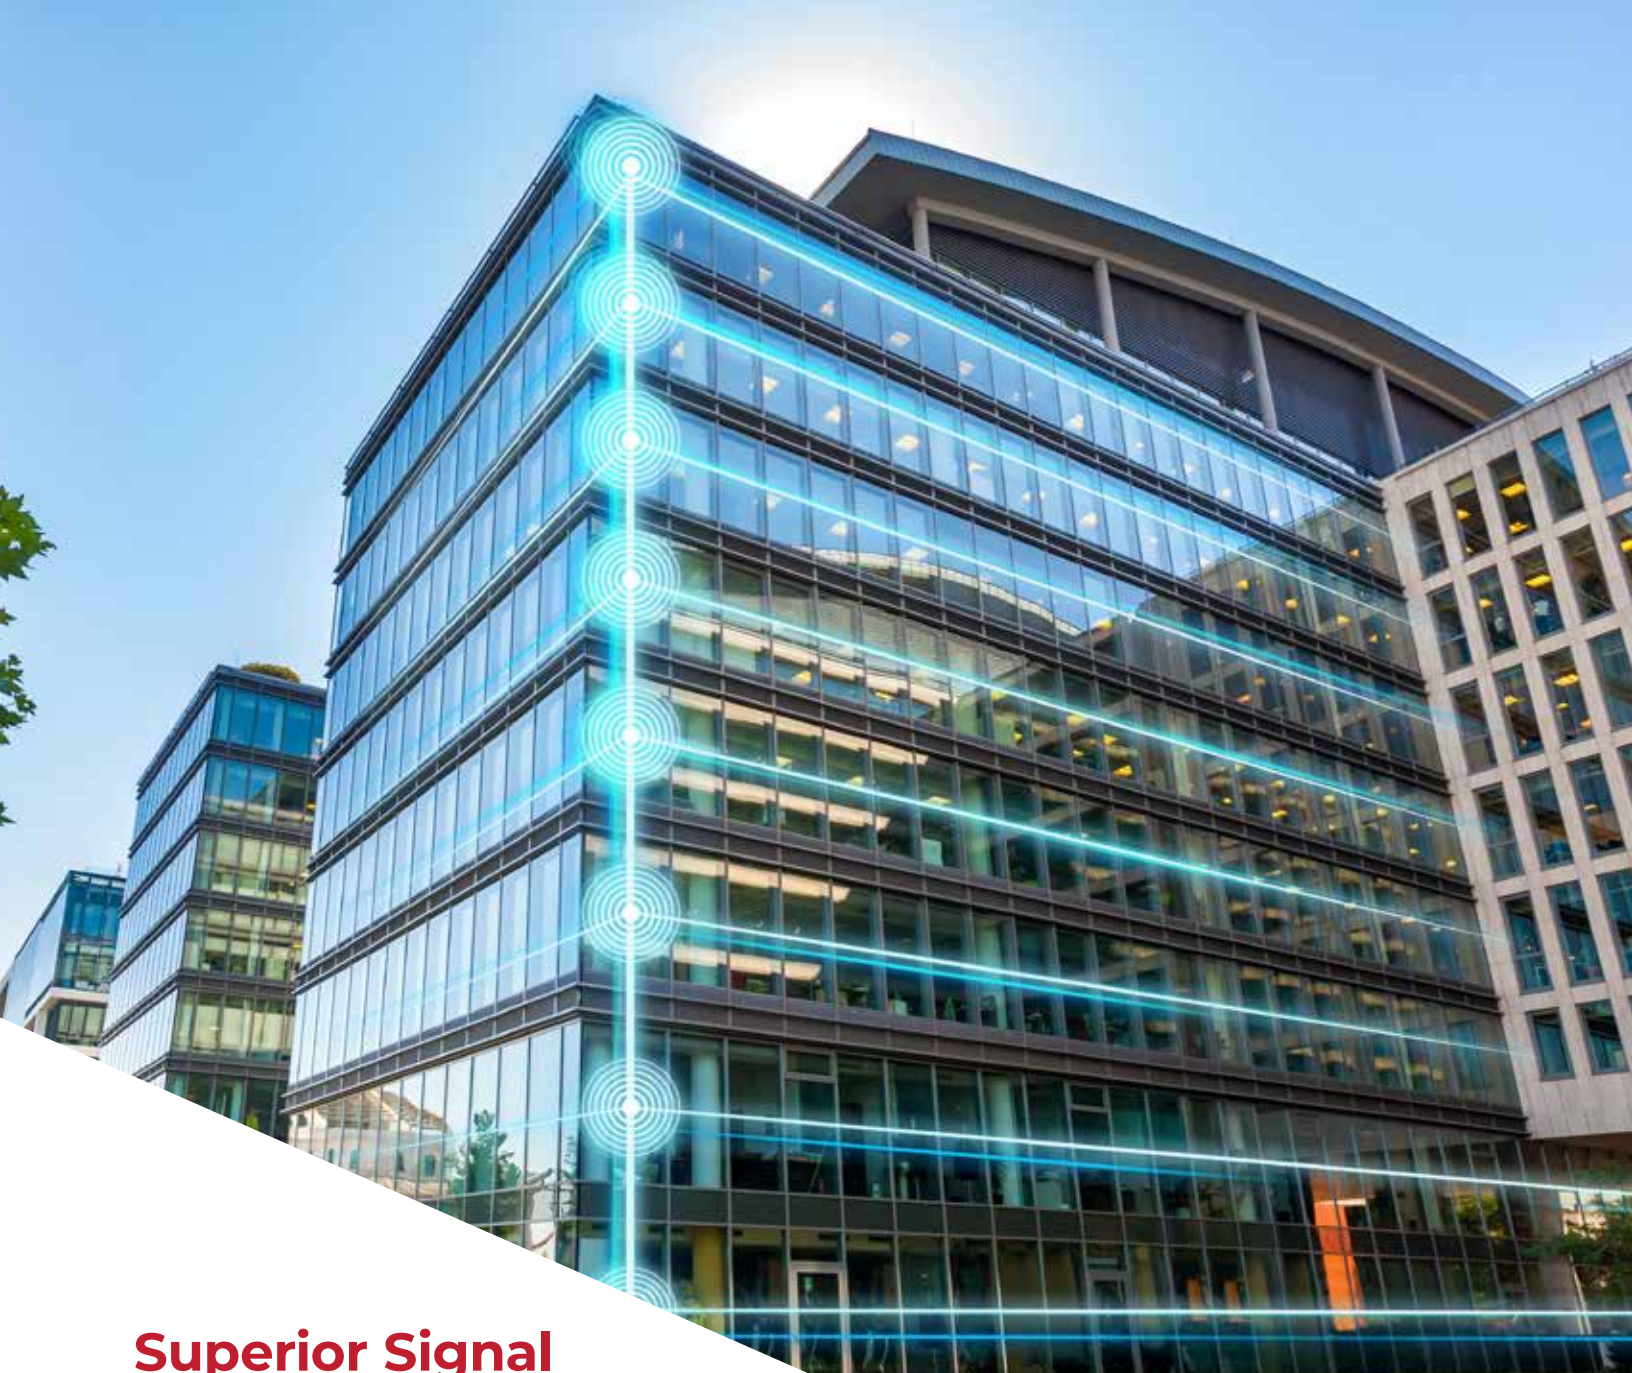

Distributed Antenna Systems (DAS)

With today's heavy wireless usage and ever growing demand for better connectivity and faster data, a Distributed Antenna System (DAS) exists to amplify carrier coverage, ensuring that no matter what size or location of your building, no signal gets dropped. Maestro keeps you connected by designing a unique system that meets the specific needs of your building and business operations, ensuring dependable coverage. Our team of FCC licensed experts use fiber optics, digital, and passive mechanisms with strategic antenna placement to streamline your communications and keep your tenants happy.

DAS Industry Leading Experts

Our wealth of experience gives us the flexibility to undertake large-scale projects on a turnkey basis.

Superior Signal Strength And Coverage

The Emergency Responder Radio Coverage System provides a vital tool for first responders. It allows them to remain in contact with those on the outside, maintaining radio communications during an emergency. Maestro take great pride in being recognized by many Fire jurisdictions as an approved and trusted ERRCS installer, a status gained only by those having an established history of professional and successful designs and installs.

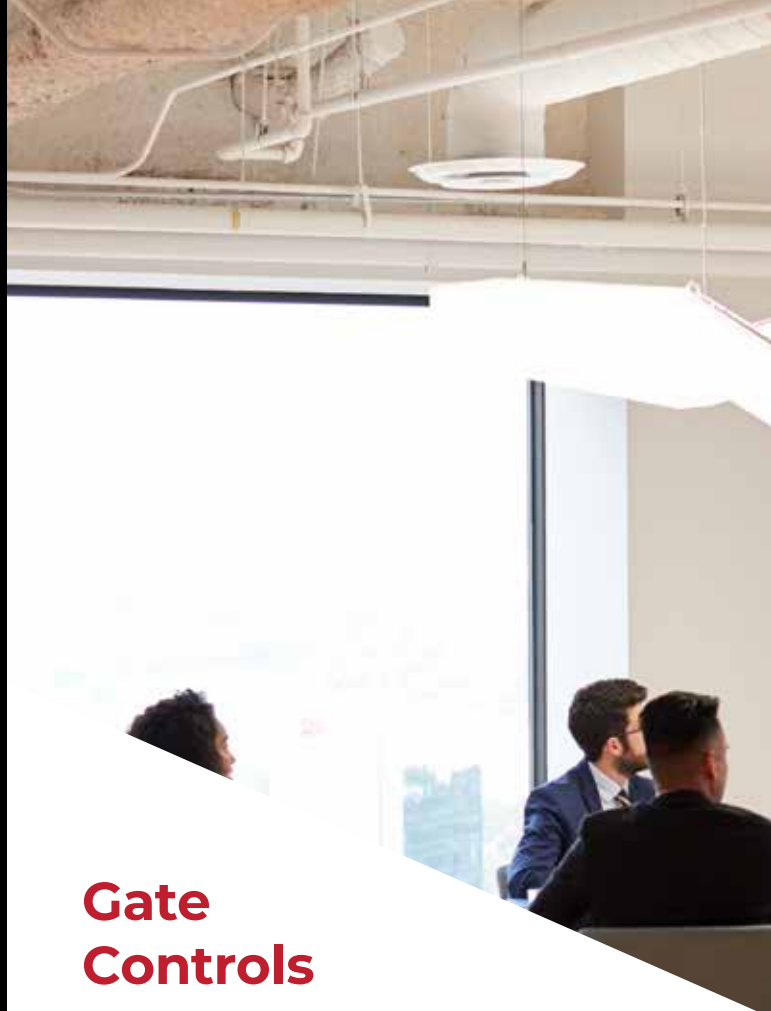

We maintain strong relationships with Authorities Having Jurisdiction, ensuring we stay up to date with all code changes

Certificate of Occupancy (CO)/Temporary Certificate of Occupancy (TCO) process

Monitor who enters your facility and grant or deny access accordingly

Gate Controls

Property managers and owners have a lot on their plate. With Maestro Integrations' gate systems for multi-family dwellings, we provide full-service design and installation for all of your needs from some of the top names in Access Control. From swing gates to automated gate controls, Maestro will design the system to best suit your community's unique needs.

Have a large portfolio? Manage and control multiple access points across all communities from a single dashboard. Or select a cloud-based platform for the ultimate in convenience, allowing you to perform such tasks as adding or deleting resident access with a few keystrokes.

Automated gate control systems can improve safety by preventing accidents or unauthorized entries into your property.

Access Control

Control who enters and leaves your property to get peace of mind and keep your business safe and secure. We offer a wide range of access control solutions to meet the specific needs of your business, from system logs and tracking the identities of those who enter to creating a record that can be combined with recorded video for even greater value.

Protect your business from potential burglars and other intruders

Create unique access codes and rules for your employees and visitors

Easy-to-use Integrated Systems

**Cutting-edge
technology to
keep your
business safe and
protected 24/7**

Security Systems

Our integrated security systems are designed and installed in your business to detect and notify of attacks and break-in attempts.

These systems expand the ordinary capability to a great variety of automation tasks as well as monitoring the assets of your business space.

Save money on business insurance

A business that doesn't have security systems is regarded as a high-risk business. By investing in a commercial high-end security system, you'll save money on business insurance while ensuring the safety of your employees and customers.

You'll Never Have To Worry Again

Other features include flashing lights in the event of an alarm, scheduled lighting scenes to help prevent costly break-ins, and the ability to monitor your internal business daily with remote access on your mobile device even when you are away. Our alarm systems also make use of broadband or cellular chips for their connectivity so that if the power gets cut, they are still active.

**Remote access
on your mobile
devices**

**Scheduled lighting
scenes to help prevent
costly break-ins**

**24/7/365
Always active.
Peace of mind!**

INTEGRATIONS

**See what's
happening at
your business
from wherever
you are in the
world**

Surveillance Systems

Whether you aim to deter theft or ensure accountability, we offer the highest quality surveillance products – with options to help you stay within your budget. Our cameras include IP-based network capability that is 1080p high definition and works well for indoor or outdoor applications. Ideal for free-standing structures, parking garages, and lots more.

Looking for a way to keep tabs on your facility or office without being noticed?

Our line of covert cameras come in undetectable forms to assist in monitoring the internal operation of your business for quality assurance, theft detection, and liability protection from personnel lawsuits.

We've Got You Covered

The installation of security cameras is not enough to guarantee the safety of your facilities. Our team of experts is ready to help you find an integrated end-to-end system. From monitoring and storage options to networking, you can be sure your facility will be safe and secure.

Keep safe your business from the inside and out

Real-time notifications on detected motion

Crystal-clear video and two-way audio

MAESTRO INTEGRATIONS

The high-end
sound and
video quality
will amaze you
whether you're
listening in your
bedroom or
office

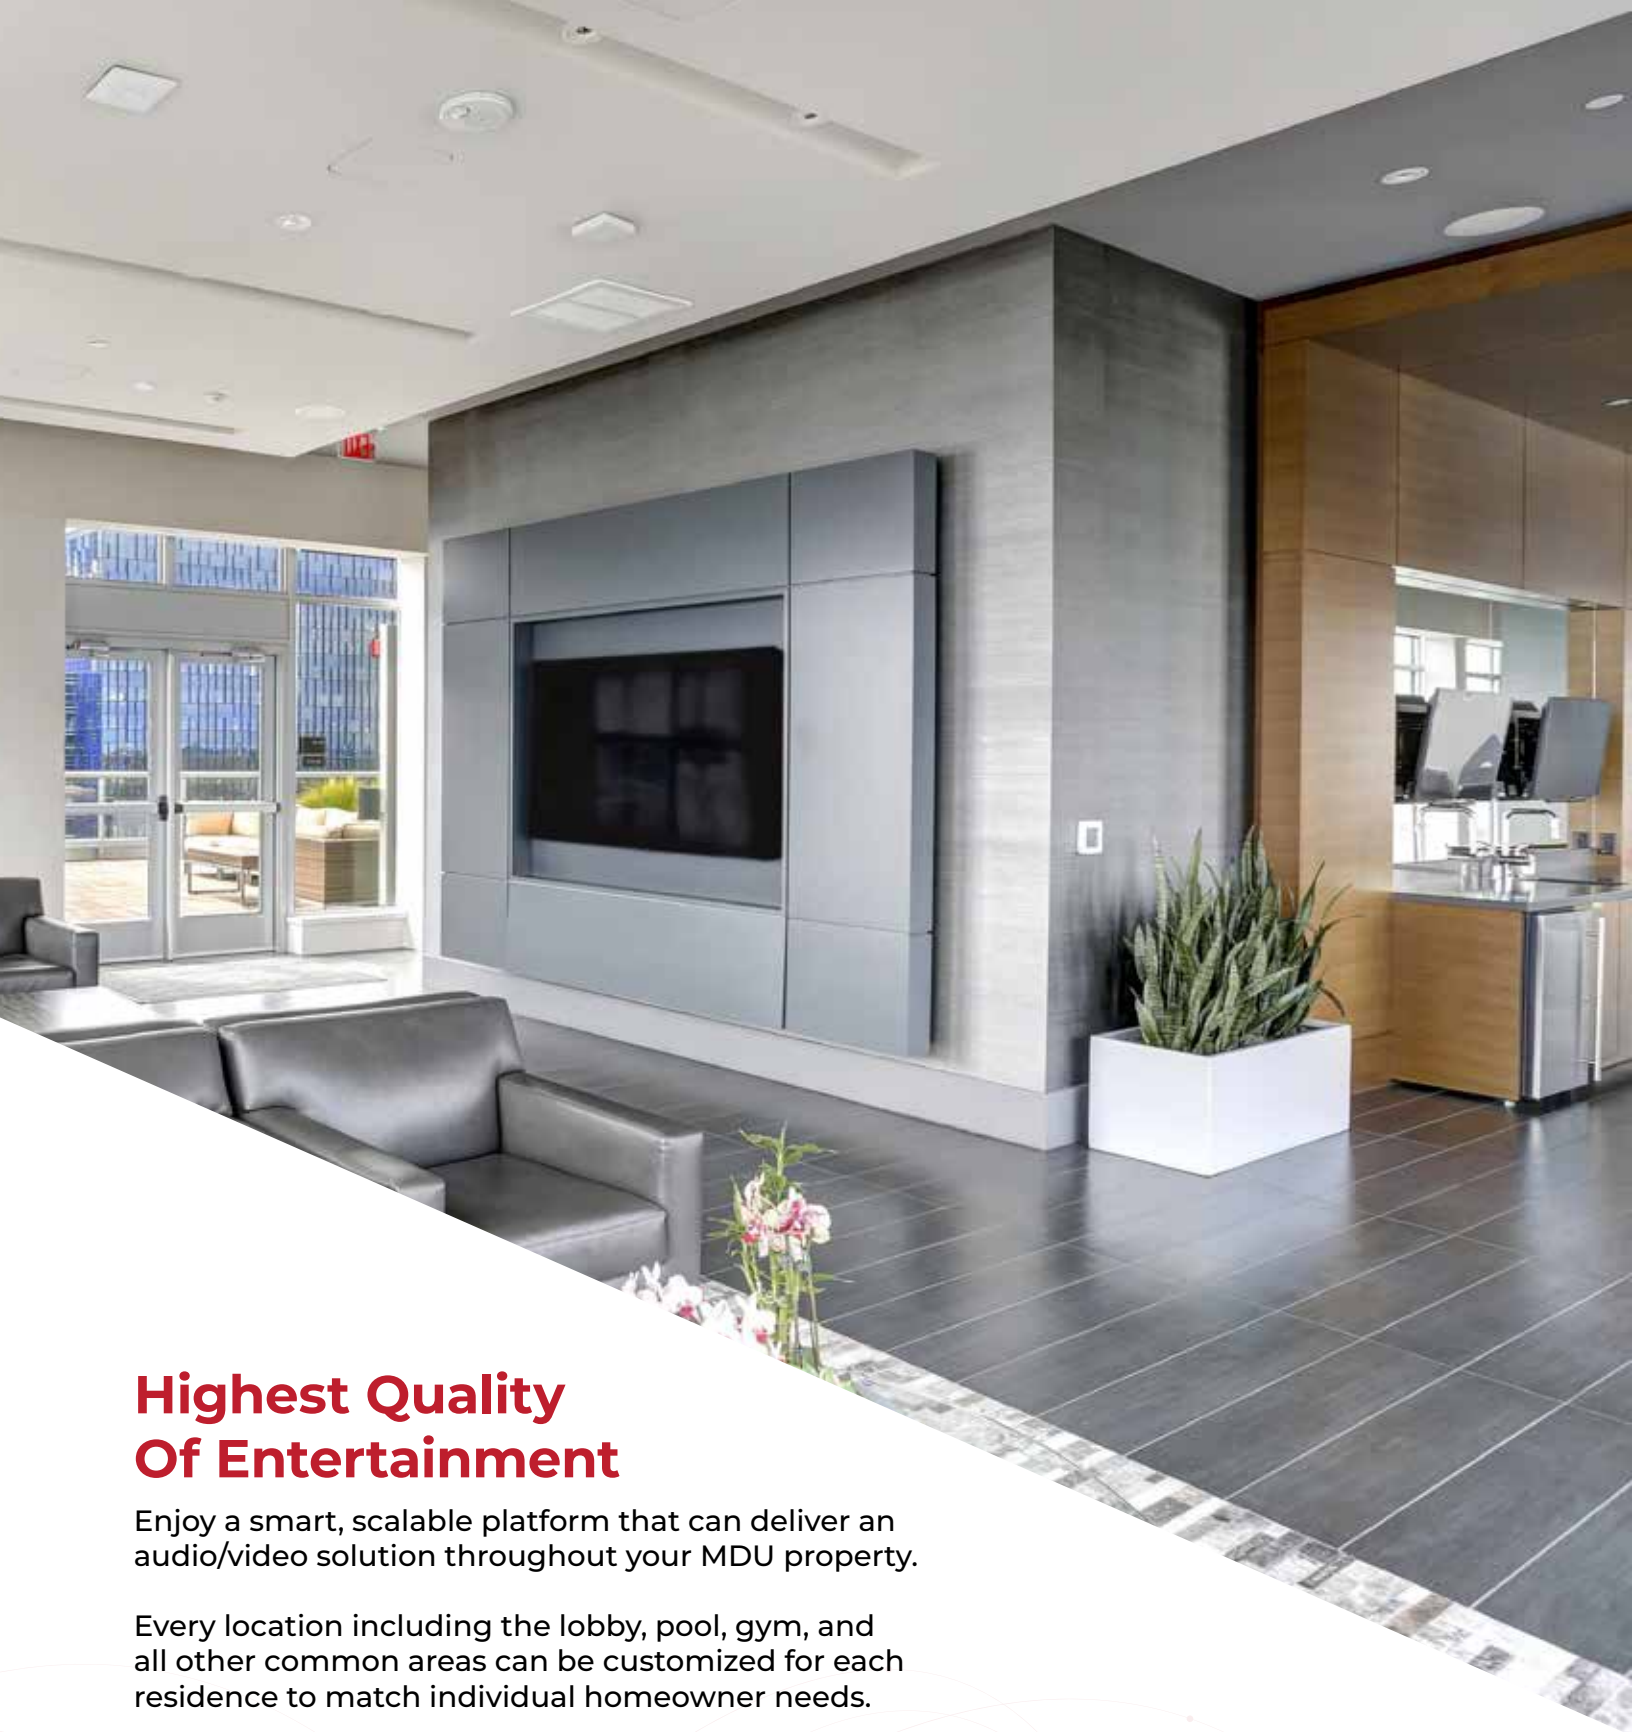

Audio/Video Systems

Audio/Video systems from Maestro Integrations allow you to choose from multiple scenarios with one-touch control over the entire system. While some can be enjoying the ultimate home cinema experience, music can enhance your culinary activities in the kitchen or stream the news in your home office. All the TVs can also be similarly connected, showing the same content or playing separate media in each room.

**Enjoy great sound and
images without any hassles.**

Easily adjust the volume, change the channel, or turn the system on and off with a touch of a button from your smart device. Experience the best in entertainment!

Highest Quality Of Entertainment

Enjoy a smart, scalable platform that can deliver an audio/video solution throughout your MDU property.

Every location including the lobby, pool, gym, and all other common areas can be customized for each residence to match individual homeowner needs.

Scalable Solution: The platform can be easily adapted for each property's unique needs

Easy Integration with other systems in your property
